MEMORANDUM

TO : **ALL GOVERNORS, CITY/MUNICIPAL MAYORS, DILG PROVINCIAL/CITY DIRECTORS, CITY LOCAL GOVERNMENT OPERATIONS OFFICER OF ORMOC, AND ALL OTHERS CONCERNED**

SUBJECT : **ADOPTING/APPROVING THE DISASTER RESPONSE REPORTING TEMPLATE AND STANDARD OPERATING PROCEDURES FOR ADOPTION OF THE LOCAL DISASTER RISK REDUCTION AND MANAGEMENT COUNCILS**

DATE : February 26, 2025

==========

This has reference to the herein attached Regional Disaster Risk Reduction and Management Council (RDRRMC) VIII Resolution No. 12-006, series of 2023, regarding the Resolution Adopting/Approving the Disaster Response Reporting Template and Standard Operating Procedures for Adoption of the Regional/Local Disaster Risk Reduction and Management Councils (R/LDRRMCs).

In view of this, **all Local Disaster Risk Reduction and Management Councils are hereby directed to adopt and utilize the disaster response reporting template and standard operating procedures**. You may access the forms/templates through the link: https://tinyurl.com/HarmonizedTemplate.

Relative thereto, all DILG Provincial/City Directors and the City Local Government Operations Officer of Ormoc are directed to cause the widest dissemination of this Memorandum in your respective areas of responsibility.

For guidance and compliance.

For:
ARNEL M. AGABE, CESO III
Regional Director

LGCDD/AMA/DNB/RAR/RDF/*vkia*

R08-FAD-2025-02-24-032

REPUBLIC OF THE PHILIPPINES
REGIONAL DISASTER RISK REDUCTION AND MANAGEMENT COUNCIL
REGIONAL OFFICE VIII – EASTERN VISAYAS

RDRRMC8 RESOLUTION NO. 12-006, series of 2023

RESOLUTION ADOPTING/APPROVING THE DISASTER RESPONSE REPORTING TEMPLATE AND STANDARD OPERATING PROCEDURES (SOP) AND ENDORSING THE SAME TO THE R/LDRRMCs

WHEREAS, Section 2(a) of Republic Act 10121, it is the policy of the State to uphold the people's constitutional rights to life and property by addressing the root causes of vulnerabilities to disasters, strengthening the country's institutional capacity for disaster risk reduction and management, and building the resilience of local communities to disasters, including climate change impacts;

WHEREAS, Section 2(d) of the law further stipulates that there is a need to adopt a disaster risk reduction and management approach that is holistic, comprehensive, integrated, and proactive in lessening the socioeconomic and environmental impacts of disasters, including climate change, and promotes the involvement and participation of all sectors and all stakeholders concerned, at all levels, especially the local community;

WHEREAS, under Section 9(g) and (h) of the law, standard operating procedures for the information sharing among different government agencies, coordination before and after disasters at all levels, and a communication system among provincial, city, municipal, and barangay disaster risk reduction and management councils, for purposes of warning and alerting them and gathering information on disaster areas before, during, and after disasters;

WHEREAS, on 08 November 2023 during the 1st Regional Disaster Resilience Forum with local DRRM officers, one of the issues or concerns raised was the multiple disaster reporting template formats from different agencies, causing inefficiency and redundancy in information sharing;

WHEREAS, as stipulated in the Reporting of Disaster Incidents under the Regional DRRM Operations Center (RDRRMOC) Standard Operating Procedures (SOP), effective reporting is required to ensure proper monitoring and documentation of disaster occurrences and their effects on the population, properties, and environment. It also serves as a means of communication, basis for evaluation, and avenue for dissemination of activities to the public, keeping them abreast of the current situation;

WHEREAS, the Department of Social Welfare and Development (DSWD) Region VIII, as Vice-Chairperson of the Disaster Response and Early Recovery Pillar, spearheaded the harmonization of the disaster reporting template together with agency representatives;

WHEREAS, the reporting template was presented to the august body during the 4th Quarter Regional DRRM Council Meeting, emphasizing the inclusion of all essential components in the template, the roles and responsibilities of the agencies and LGUs, and the timeline of cascading;

NOW THEREFORE, by motion of Mr. Manuel Van Torrevillas of the Samar Provincial Disaster Risk Reduction and Management Office (PDRRMO), duly seconded by Engr. Arvin Monge of the Leyte Provincial Disaster Risk Reduction and Management Office (PDRRMO), **BE IT RESOLVED, AS IT IS HEREBY RESOLVED,** recommend adopting the disaster response reporting template and Standard Operating Procedures (SOP);

RESOLVED FURTHER, that the harmonized reporting template be distributed to all RDRRMC member agencies and LDRRM Offices and utilized whenever necessary;

RESOLVED FINALLY, that this Resolution be distributed to all Regional and Local DRRM Councils for adoption and other entities for information and reference;

UNANIMOUSLY APPROVED on 19th December 2023 during the 4th Quarter RDRRMC8 Full Council Meeting held at the Hotel de Fides, Tacloban City.

I hereby certify the correctness of the above resolution:

SHER RYSIAH M. SAISES
Head Secretariat

Attested:

REY M. GOZON
Presiding Officer

Standard Operating Procedure (SOP)

I. Background/Rationale

As mandated in Republic Act 10121 of 2010, also known as the Philippine Disaster Risk Reduction in and Management Act, the Disaster Risk Reduction Council, being empowered with policy-making, coordination, integration, supervision, monitoring, and evaluation functions, shall ensure multi-stakeholder participation in the development, updating, and sharing of a Disaster Risk Reduction and Management Information System as policy, planning and decision-making tools; Develop appropriate risk transfer mechanisms that shall guarantee social and economic protection and increase resiliency in the face of disaster; Monitor the development and enforcement by agencies and organizations of the various laws, guidelines, codes, or technical standards required by this Act; Develop assessment tools on the existing and potential hazards and risks brought about by climate change to vulnerable areas and ecosystems in coordination with the Climate Change Commission; Develop vertical and horizontal coordination mechanisms for a more coherent implementation of disaster risk reduction and management policies and programs by sectoral agencies and LGUs; Formulate, harmonize, and translate into policies a national agenda for research and technology development on disaster risk reduction and management; and Constitute a technical management group composed of representatives of the abovementioned departments, offices, and organizations that shall coordinate and meet as often as necessary to effectively manage and sustain national efforts on disaster risk reduction and management;

The Department of Social Welfare and Development (DSWD) shall act as the Vice Chair for the Disaster Response and Early Recovery Cluster of the National/Regional/Local Disaster Risk Reduction Management Council (N/R/LDRRMC). The DSWD as the vice-chair, shall lead the Response and Early Recovery Cluster through the Cluster Approach, which was institutionalized to effectively lead the Philippine Government's Disaster Response and Early Recovery Operations.

Assisting the DSWD in delivering Response Cluster Services are ten (10) government response agencies that lead the twelve (12) response clusters, namely: (1) Search, Rescue, and Retrieval (SRR); (2) Health; (3) Education; (4) Law and Order; (5) Philippine International Humanitarian Assistance (PIHA); (6) Emergency Telecommunications; (7) Logistics; (8) Camp Coordination and Camp Management (CCCM); (9) Food and Non-food Items (FNI); Internally Displaced Persons (IDP) Protection (10); Shelter (11) and Management of the Dead and the Missing (12).

Under Republic 10821 or the Children's Emergency Relief and Protection Act, the DSWD was mandated to report disaggregated by age, gender, ethnicity, and special needs. Data collected shall be used to understand and respond better to the needs of children affected by disasters and calamities.

Thus, a need to establish harmonized reports on disaster data and information as the basis for delivering unified services to disaster-affected and internally displaced families or persons especially disadvantaged poor, women, children, the elderly, and persons with disabilities. In this light, the Response and Early Recovery Cluster Lead and Member Agencies aim to enhance and systematize their disaster incident reporting system through this Standard Operating Procedures (SOP) to ensure that this will be implemented through a whole nation approach.

The Standard Operating Procedures (SOP) for the Harmonized Data and Information Management of the Response and Early Recovery Cluster will address the growing need for accurate and timely data as the primary reference of policymakers in disaster response and

early recovery management that there is a need to ensure that reports were prepared effectively and efficiently.

To further ensure that reports were generated, prepared, and submitted with minimal corrections and data or information inconsistencies, there is a need to standardize the reporting procedure for the Disaster Risk Reduction Management Council, specifically in the Response and Early Recovery Cluster at all levels. Such SOP for the Harmonized data and Information would serve as reference material to guide the Response and Early Recovery Cluster on how to properly report the disaster incident occurrences. The SOP shall embody and explain comprehensively all parts of the reporting requirements used in generating disaster reports, and enumerate basic protocols of disaster reporting.

It was envisioned that the data and information management of the Response and Early Recovery Cluster would be more innovative and responsive and perform a transformative role that provides timely, strategic, flexible, well-targeted, and inclusive disaster response and early recovery information management data sources on the ground. An effective Disaster Response and Early Recovery wouldn't be feasible without timely and relevant information.

II. Objectives

- To have a Harmonized Reporting Template, set a Standard Operating Procedures and ensure readiness of Data and Information Contingency Plan for Disaster Response and Early Recovery;
- To have a common understanding on data and information requirements and lay down protocols in data generation, report preparation, submission and validation, and information dissemination and publication; and
- To have an effective and efficient data and information management, decision making, monitoring, and planning during Response Operations.

III. Definition of Terms

For clarity and common understanding of the terms that shall be used in this document, the following operational definitions shown in Table 1 shall be used:

Table 1: Definition of Terms

Standard Operating Procedure (SOP)

Particulars	Definition of Terms
Actions Taken	A collective activity made by the majority of the governmental body to respond to the concerns of the affected area due to a disaster incident.
Affected Families and Persons	Refers to the number of affected families or persons for each barangay. It shall be encoded in a spreadsheet or Excel file for the detailed breakdown report to track the initial and upcoming updates noted in the cumulative and current columns. Data presented should be age and sex-disaggregated.
Alert Levels	Based on the National and Regional Disaster Response Plan, Alert Levels are defined in three (3) step color codes: WHITE, BLUE, and RED.
Assistance Provided	Food or Non-food Items and Cash provided by Local Government Units and Provincial/ Regional Disaster Risk Reduction Management Council - member agencies to augment the existing resources of the affected locality or population.
Blue (Heightened Alert)	Pertains to a condition of stand-by readiness in preparation for a full-scale response operation. This is commonly done in situations of slow-onset disasters. In this condition, at least 50% of human and material resources are made available for duty or deployment. The detection, tracking, monitoring, and results of pre-disaster risk assessment triggers this status. The personnel of the Local, Provincial, Regional, and National Disaster Risk Reduction and Management Council shall be responsible for operating the Emergency Operations Center based on the given directive. The data generation team shall also be deployed at the Local, Provincial, Regional, and National Disaster Risk Reduction and Management Council Operations Center.
Calamity	Generally used to refer to large-scale natural or human-induced disasters; an event resulting in great loss. The key difference between calamity and disaster would be their severity; calamity is considered to be more severe and destructive than disaster.
Cancellation of Classes	Class Cancellation means students are not required to attend lectures, tests, or other sanctioned activities that require a physical presence on campus due to the possible threat of impending or existing disaster.
Cancellation of Work	Executive Order No. 66 - In the absence of typhoon signal warnings from PAGASA, localized cancellation or suspension of work in government offices may be implemented by local chief executives, as chairmen of the Local Disaster Risk Reduction and Management Council (LDRRMC) concerned, in coordination with PAGASA and the NDRRMC, specifically in flood-prone or high-risk areas.
Conflagration	A large disastrous fire involving numerous buildings, houses, or structures.
Casualty	A victim of a disaster, who died, got injured, or was missing, and who was physically injured or killed by a destructive event.
Cost of Assistance	This data indicates the cost of the various forms of assistance such as food, non-food items, and cash given by Non-Government Organizations/ National Government Agencies/ Local or Provincial Government Units/ Civil Society Organizations to the affected population.
Cumulative (Cum)	Refers to the total accumulated number of affected and displaced families/persons, and evacuation centers during disaster response operations.

Standard Operating Procedures (SOP)

Damaged Houses	Refers to the count of partially or totally damaged houses, and is the basis for determining the beneficiaries for disaster relief assistance and early recovery and rehabilitation services. An initiative to tally the total number of damaged houses after the disaster to identify proper intervention for post-disaster recovery. Deploy a Shelter Response Team in the disaster-affected areas to assess and verify the data on housing damages.
Dead Body (Confirmed)	Dead Body refers to a person exhibiting one or more of the following signs and observations: • Irreversible absence of pulse and respiration; • Total absence of brain activities; and • Cooling of the body to a well below normal temperature, 35° or less, including bodies in algor mortis, livor mortis, and rigor mortis. Number of confirmed dead (1. identified and 2. unidentified and processed by the Disaster Victim Identification Team). Identified dead bodies are those dead bodies duly issued with certificate of identification by the Philippine National Police (PNP) Unidentified and Processed Dead Bodies by the DVI are considered confirmed dead bodies after DVI procedures have been made
Dead (for Verification and Validation)	Dead Body refers to a person exhibiting one or more of the following signs and observations: • Irreversible absence of pulse and respiration; • Total absence of brain activities; and • Cooling of the body to a well below normal temperature, 35° or less, including bodies in algor mortis, livor mortis, and rigor mortis. Verification - A process where information about a casualty in a disaster event is confirmed through investigation and official channels. This can only be proved through a Philippine National Police Spot and/or Progress Reports and as reflected in the Local Disaster Risk Reduction Management Office's Situational Report. Validation - A process where the verified reported casualty in a disaster event is confirmed through a scientific method that determines the death of the causality is directly and/or indirectly related to the disaster/event. This can be proved through the issuance of the Death Certificate.
Declaration of a State of Calamity	The State of Calamity means a situation resulting from a natural disaster caused by one or more of the events specified in National Disaster Coordinating Council (NDCC) Memo Order Number 04, Series of 1998 dated March 4, 1998, entitled "Amended Policies, Procedures and Criteria for the Declaration of a State of Calamity".
Disaster	A serious disruption of the functioning of a community or a society involving widespread human, material, economic or environmental losses and impacts, which exceeds the ability of the affected community or society to cope using its own resources. Disasters are often described as a result of the combination of: the exposure to a hazard; the conditions of vulnerability that are present; and insufficient capacity or measures to reduce or cope with the potential negative consequences, disaster impacts may include loss of life, injury, disease and other negative effects on human, physical, mental and social well-being, together with damage to property, destruction of assets, loss of services, social and economic disruption and environmental degradation" (RA 10121).

Standard Operating Procedure (SOP)

	There are two major types of disasters: natural and human-induced. a. Natural disaster – is a major adverse event resulting from natural processes of the earth; examples include floods, hurricanes, tornadoes, volcanic eruptions, earthquakes, tsunamis, and other geologic processes, tropical cyclones, landslides, pandemic, severe storms, wildfires, drought, extreme heat, pests / agricultural disease, thunderstorms and lightning. It has two types of occurrences: slow-onset and rapid-onset. a.1. Slow-onset – occurrences that can be predicted in advance (such as tropical storms) and unfold over months or even years (such as drought). a.2. Rapid-onset – occurrences that cannot be predicted far in advance, trigger rapid-onset disasters (earthquakes, cyclones and other windstorms, landslides and avalanches, wildfires, floods and volcanic eruptions are usually categorized as rapid-onset events. The warning time ranges from seconds or at best a few minutes in the case of earthquakes and many landslides, to several days in the case of most storms and floods. Some volcanic eruptions may be preceded by weeks or months of activity but predicting volcanoes' behavior remains very difficult. Concerned agencies may not have ample time to give warnings for catastrophic eruptions). b. Human-induced disaster – the devastating effect of a human-made hazard, such as fire, terrorism, war, armed conflicts / social disorganization, industrial accidents, greenhouse effects, deforestation, that result in negative effects on people, property and/or the environment. It involves an element of human intent, negligence, or error; or a failure of a man-made system.
Disaster Preparedness	The knowledge and capacities developed by governments, professional response and recovery organizations, communities and individuals to effectively anticipate, respond to, and recover from, the impacts of likely, imminent or current hazard events or conditions. (Preparedness actions aim to build the capacities needed to efficiently manage all types of emergencies and achieve orderly transitions from response to sustained recovery. Preparedness is based on a sound analysis of disaster risk and good linkages with early warning systems, and includes such activities as contingency planning, stockpiling of equipment and supplies, the development of arrangements for coordination, evacuation and public information, and associated training and field exercises. These must be supported by formal institutional, legal and budgetary capacities) (RA 10121).
Disaster Response and Early Recovery	Any concerted effort by two or more agencies, public or private, to provide assistance or intervention during or immediately after a disaster to meet the life preservation and basic subsistence needs of those people affected and in the restoration of essential public activities and facilities in the early recovery stage. It entails "the provision of emergency services and public assistance during or immediately after and in the early recovery stage of a disaster in order to save lives, reduce health impacts, ensure public safety, and meet the basic subsistence needs of the people affected. Disaster Response and Early Recovery is predominantly focused on immediate, short-term needs and is sometimes called 'disaster relief and provision of other assistance while transitioning the response and early recovery efforts to recovery and

Standard Operating Procedure (SOP)

	rehabilitation'" (RA 10121 and NDRRMC Resolution No. 09 Series of 2021).
Disaster Risk Reduction (DRR)	The concept and practice of reducing disaster risks through systematic efforts to analyze and manage the causal factors of disasters, including through reduced exposures to hazards, lessened vulnerability of people and property, wise management of land and the environment, and improved preparedness for adverse events (RA 10121).
Disaster Incidents of Similar Type / Nature	Pertains to a situation wherein two or more disaster incidents of similar type or nature (i.e. hydro-meteorological) have transpired within the same locality and within the same time.
Disaster Incidents of Different Type / Nature	Pertains to a situation wherein two or more disaster incidents of varied type or nature (i.e. southwest monsoon and fire or earthquake) have transpired within the same period of the first event / incident, and in the same location.
Displaced Families and Persons	Refers to the number of displaced populations staying inside the evacuation centers with their families, relatives, or friends. Data presented should be age and sex-disaggregated.
Distribution of Food and Non-Food Items and Cash	Food, non-food, and cash assistance are distributed to the families affected by any disaster.
Distribution of Housing Financial Assistance to affected families	An initiative to provide affected families with financial assistance to help them in their recovery post-disaster. Deploy a Shelter Response Team in the disaster-affected areas to conduct the following activities: 1) Assess the emergency shelter needs of affected communities and set targets for prioritization. 2) Regional Shelter Response Team to validate the number of affected families. 3) Distribution of emergency shelter assistance to affected families.
Emergency Operation Center (EOC)	The facility mandated by RA 10121 to be established in every DRRMC that shall be operated and staffed on a twenty-four (24) hour basis for coordination work on DRRM. The EOC supports and helps coordinate Incident Command Post (ICP) operations and any other adjacent incident operations.
Early Recovery	A multidimensional process of recovery that begins in a humanitarian setting. It is guided by development principles that seek to build on humanitarian programs and catalyze sustainable development opportunities (IRR of RA 10121).
Flooded Areas	A situation in which an area is covered with water, especially those catch basins due to continuous rains.
Geographically Isolated and Disadvantaged Areas (GIDA)	Refer to communities with marginalized populations physically and socio-economically separated from the mainstream society and described to be: isolated due to distance, affected by extreme weather conditions and transportation difficulties island, upland, lowland, landlocked, hard to reach, unserved or underserved communities, with high poverty incidence, presence of vulnerable sector, or currently experiencing or recovering from a crisis situation.
Hazard	A dangerous phenomenon, substance, human activity or condition that may cause loss of life, injury or other health impacts, property damage, loss of livelihood and services, social and economic disruption, or environmental damage (RA 10121).

Standard Operating Procedure (SOP)

Humanitarian Assistance and Disaster Response (HADR)	Decisions and actions taken during and after disaster, including immediate relief, rehabilitation, and reconstruction.
Incident	An occurrence, caused by either human or natural phenomena, that requires immediate response actions to prevent or minimize loss of life, or damage to property and the environment.
Incident Command Post (ICP)	This refers to the command post located at or near the incident site and is the center for the management of on-scene and tactical operations. Planning and communications could also be coordinated from this location.
Incident Report (IR) Form	Incident Report Form used by the Department of Education.
Infographics	A visual image with chart/diagram/graph/map used to represent information or data.
Injured Individuals	An injured individual is a person physically harmed or wounded as a result of a disaster.
Internally Displaced Persons (IDPs)	Refer to the persons (or groups of persons) who have been forced or obliged to flee or to leave their homes or places of habitual residence as a result of or in order to avoid the effects of natural or human-induced hazards, and who have not crossed an internationally recognized border.
List of affected farmers	This data is to identify the number of affected farmers with partially and totally damaged areas in hectares and to classify the beneficiaries. Farmers refer to those who cultivate.
List of affected animal raiser	This data is needed to account farmers/ animal raisers with various farm animals, its corresponding number of heads and its equivalent values in Pesos.
List of the affected fisherfolks	This data is needed to account for the fisherfolk affected during the disaster and to identify the beneficiaries for the early recovery.
List of affected coconut farmers	This data accounts all the number of coconut farmers affected, the number of hectares and the number of trees that were damaged during the disaster.
List of affected farmers with damage farm machineries, irrigation facilities and other farm infrastructure projects	This data is important to identify all farmers with damaged farm machineries, irrigation facilities and other farm infrastructure projects during disasters.
List of evacuees	Names of the affected population in the evacuation centers.
List of affected populations confined at the hospital(s)	Names of affected populations confined at the hospital/s.
Logistical Support / Augmentation	The process of planning, implementing, and controlling the efficient and effective flow of goods, services, and people from one point to another pre, during, and post-disaster phase.
Missing (Confirmed)	Number of confirmed missing (those with Philippine National Police reports only).
Missing (for Verification and Validation)	Number of missing persons for verification and validation (without police reports but were reported by concerned family members/relatives). Verification- A process where information of a casualty in a disaster event is being confirmed through investigation and official channels. This can only be proved through a Philippine National Police Spot and/or

Standard Operating Procedure (SOP)

	Progress Reports and as reflected in the Local Disaster Risk Reduction Management Office's Situational Report. Validation- A process where the verified reported casualty in a disaster event is confirmed through a scientific method that determines the death of the casualty is directly and/or indirectly related to the disaster event/ This can be proved through the issuance of the Death Certificate.
Missing and Found Alive	Number and names of missing persons who were later found alive.
Needs of Local Government Units	Identified short and long-term needs of the affected Local Government Units that need augmentation from the responding National Government Agencies.
Now	Refers to the current number of displaced families/persons that are either inside or outside the evacuation centers and the current number of opened evacuation centers.
Overlapping Incidents	Situations wherein two types of disasters occur simultaneously within the same location. These are the common overlapping incidents.
Photo Documentation	These are pictures with summarized descriptions/ captions of the response actions undertaken by the Non-Government Organizations/ National Government Agencies/ Local or Provincial Government Units/ Civil Society Organizations in the provision of various forms of assistance to affected families and persons.
Planned Events	Scheduled activities or celebrations that involve an influx of a large crowd or population.
Post-Disaster Needs Assessment (PDNA)	An internationally accepted methodology for determining the physical damages, economic losses, and costs of meeting recovery needs after a natural disaster through a government-led process.
Power Interruption	An interruption in the supply of electricity.
Predictive Analytics for Humanitarian Response (PAHR)	A machine learning tool that makes predictions on potential disaster events to prepare humanitarian responses using mathematical theories, scientific processes, and spatial technologies based on current and historical data.
Pre-emptive Evacuation	An initiative to move families / persons to a safe place prior to the landfall of a typhoon, or in anticipation of a hazardous event.
Rapid Damage Assessment and Needs Analysis (RDANA)	A disaster response mechanism that is used immediately in the early emergency phase to determine the extent of impacts and assess the priority needs of the communities.
Recommendations	Part of the Narrative Report that concerns recommendations and areas for improvement of disaster response and early recovery operations.
Red (Full Alert)	Signifies the highest level of readiness in anticipation of an imminent emergency situation, or in response to a sudden onset of disaster. In this condition, all human and material resources are made available for duty and deployment. This may result in the activation of the Response and Early Recovery Cluster and National/ Regional/ Provincial/ Local Incident Management Team (NIMT) including the escalation of the highest level of response. As such, inter-cluster action planning is done during this status.
Rehabilitation	These are measures that ensure the ability of affected communities and areas to restore their normal level of functioning by rebuilding livelihood and damaged infrastructures and increasing the communities' organizational capacity.

Standard Operation Procedure (SOP)

Relief Operations	The immediate provision of the essential and appropriate humanitarian response to those affected by a disaster, based on rapid needs assessment. This consists of the delivery of specific quantity and quality of goods - either food or non-food items; or both - to a quantified group of beneficiaries, duly recorded and accounted for.
Rescue Operation	Rescued during the onslaught and the after-effects of a disaster.
Risk Assessment	A methodology to determine the nature and extent of risk by analyzing potential hazards and evaluating existing conditions of vulnerability that together could potentially harm exposed people, property, services, livelihood and the environment on which they depend. Risk assessments with associated risk mapping include: a review of the technical characteristics of hazards such as their location, intensity, frequency and probability; the analysis of exposure and vulnerability including the physical, social, health, economic and environmental dimensions; and the evaluation of the effectiveness of prevailing and alternative coping capacities in respect to likely risk scenarios.
Situation Overview	A portion of the harmonized narrative report that gives a brief and concise information about the incoming disaster event and its possible effects that affected families have to be prepared for. This information is usually coming from official Warning Agencies (Phivolcs, PAGASA). As the report progresses, only the latest updated information about the disaster or event being monitored is noted, based on updates from Warning Agencies.
State of Calamity	A condition involving mass casualty and/or major damages to property, disruption of means of livelihoods, roads, and normal way of life of people in the affected areas as a result of the occurrence of natural or human-induced hazards.
Status of Bridges	A situation where the constructed connected wideway either hanging or not leads from one place to another that vehicles and trucks use in disaster operations is being monitored if damaged or operational.
Status of Dams	A situation where the constructed barrier that holds back water is being monitored if damaged or operational.
Status of Human Resource Capacities	The part of the report presents the number of personnel who are on standby and available anytime for emergency response deployment.
Status of Roads	A situation where the constructed wideway leads from one place to another that vehicles and trucks use in disaster operations is being monitored if damaged or operational.
Status of Seaports	A situation where the constructed harbor for seagoing ships used in disaster operations is being monitored if damaged or operational.
Status of Stranded Passengers	This data refers to the number of affected travelers in airports, sea ports, or transport terminals as verified by the LGU or the Philippine Coast Guard. Data presented should be age and sex-disaggregated.
Stockpile of Food and Non-Food items	An Inventory of Food and Non-Food items prepositioned and ready for distribution: *Family Food Packs - a core response modality of the Philippine Government in terms of food assistance ready for distribution to possible affected families by any disaster. This is a composition of raw materials such as but not limited to rice, canned goods, instant coffee, cereal drinks, or noodles that can feed a family of 5 members good for 2 days consumption. *Non-Food Items - humanitarian relief items other than food that are essential for the survival and protection of the affected by disaster.
Suspension of classes	Temporary cancellation of scheduled educational activities during

Standard Operating Procedure (SOP)

	natural disasters and calamities.
Telecommunications Service Provider Status	Mobile signal status of a Telecommunications Service Provider (Call, Text, and Data services of Smart, Globe, DITO).
Vetted Rapid Assessment of Damages Report	The Rapid Assessment of Damages Report and OM – Operations Manual are vetted reports used by the Department of Education.
Weather Condition	The atmospheric conditions that comprise the state of the atmosphere in terms of temperature, wind, clouds, and precipitation.
White (Normal Operations)	Refers to regular or normal operations, and monitoring, and reporting. The personnel of the Local, Provincial, Regional, and National Disaster Risk Reduction and Management Council shall be operating based on their mandates.

Particulars	Definition of Terms
Actions Taken	A collective activity made by the majority of the governmental body to respond to the concerns of the affected area due to a disaster incident.
Affected Families and Persons	Refers to the number of affected families or persons for each barangay. It shall be encoded in a spreadsheet or Excel file for the detailed breakdown report to track the initial and upcoming updates noted in the cumulative and current columns. Data presented should be age and sex-disaggregated.
Alert Levels	Based on the National and Regional Disaster Response Plan, Alert Levels are defined in three (3) step color codes: WHITE, BLUE, and RED.
Assistance Provided	Food or Non-food Items and Cash provided by Local Government Units and Provincial/ Regional Disaster Risk Reduction Management Council - member agencies to augment the existing resources of the affected locality or population.
Blue (Heightened Alert)	Pertains to a condition of stand-by readiness in preparation for a full-scale response operation. This is commonly done in situations of slow-onset disasters. In this condition, at least 50% of human and material resources are made available for duty or deployment. The detection, tracking, monitoring, and results of pre-disaster risk assessment triggers this status. The personnel of the Local, Provincial, Regional, and National Disaster Risk Reduction and Management Council shall be responsible for operating the Emergency Operations Center based on the given directive. The data generation team shall also be deployed at the Local, Provincial, Regional, and National Disaster Risk Reduction and Management Council Operations Center.
Calamity	Generally used to refer to large-scale natural or human-induced disasters; an event resulting in great loss. The key difference between calamity and disaster would be their severity; calamity is considered to be more severe and destructive than disaster.
Cancellation of Classes	Class Cancellation means students are not required to attend lectures, tests, or other sanctioned activities that require a physical presence on campus due to the possible threat of impending or existing disaster.
Cancellation of Work	Executive Order No. 66 - In the absence of typhoon signal warnings from PAGASA, localized cancellation or suspension of work in government offices may be implemented by local chief executives, as chairmen of the Local Disaster Risk Reduction and Management Council (LDRRMC) concerned, in coordination with PAGASA and the NDRRMC, specifically in flood-prone or high-risk areas.
Particulars	**Definition of Terms**

Standard Operating Procedures (SOP)

Conflagration	A large disastrous fire involving numerous buildings, houses, or structures.
Casualty	A victim of a disaster, who died, got injured, or was missing, and who was physically injured or killed by a destructive event.
Cost of Assistance	This data indicates the cost of the various forms of assistance such as food, non-food items, and cash given by Non-Government Organizations/ National Government Agencies/ Local or Provincial Government Units/ Civil Society Organizations to the affected population.
Cumulative (Cum)	Refers to the total accumulated number of affected and displaced families/persons, and evacuation centers during disaster response operations.
Damaged Houses	Refers to the count of partially or totally damaged houses, and is the basis for determining the beneficiaries for disaster relief assistance and early recovery and rehabilitation services. An initiative to tally the total number of damaged houses after the disaster to identify proper intervention for post-disaster recovery. Deploy a Shelter Response Team in the disaster-affected areas to assess and verify the data on housing damages.
Dead Body (Confirmed)	Dead Body refers to a person exhibiting one or more of the following signs and observations: • Irreversible absence of pulse and respiration; • Total absence of brain activities; and • Cooling of the body to a well below normal temperature, 35° or less, including bodies in algor mortis, livor mortis, and rigor mortis. Number of confirmed dead (1. identified and 2. unidentified and processed by the Disaster Victim Identification Team). Identified dead bodies are those dead bodies duly issued with certificate of identification by the Philippine National Police (PNP) Unidentified and Processed Dead Bodies by the DVI are considered confirmed dead bodies after DVI procedures have been made
Dead (for Verification and Validation)	Dead Body refers to a person exhibiting one or more of the following signs and observations: • Irreversible absence of pulse and respiration; • Total absence of brain activities; and • Cooling of the body to a well below normal temperature, 35° or less, including bodies in algor mortis, livor mortis, and rigor mortis. Verification - A process where information about a casualty in a disaster event is confirmed through investigation and official channels. This can only be proved through a Philippine National Police Spot and/or Progress Reports and as reflected in the Local Disaster Risk Reduction Management Office's Situational Report. Validation - A process where the verified reported casualty in a disaster event is confirmed through a scientific method that determines the death of the causality is directly and/or indirectly related to the disaster/event. This can be proved through the issuance of the Death Certificate.
Declaration of a State of Calamity	The State of Calamity means a situation resulting from a natural disaster caused by one or more of the events specified in National Disaster Coordinating Council (NDCC) Memo Order Number 04, Series of 1998 dated March 4, 1998, entitled "Amended Policies, Procedures and Criteria for the Declaration of a State of Calamity".

Standard Operating Procedure (SOP)

Disaster	A serious disruption of the functioning of a community or a society involving widespread human, material, economic or environmental losses and impacts, which exceeds the ability of the affected community or society to cope using its own resources. Disasters are often described as a result of the combination of: the exposure to a hazard; the conditions of vulnerability that are present; and insufficient capacity or measures to reduce or cope with the potential negative consequences, disaster impacts may include loss of life, injury, disease and other negative effects on human, physical, mental and social well-being, together with damage to property, destruction of assets, loss of services, social and economic disruption and environmental degradation" (RA 10121). There are two major types of disasters: natural and human-induced. a. Natural disaster – is a major adverse event resulting from natural processes of the earth; examples include floods, hurricanes, tornadoes, volcanic eruptions, earthquakes, tsunamis, and other geologic processes, tropical cyclones, landslides, pandemic, severe storms, wildfires, drought, extreme heat, pests / agricultural disease, thunderstorms and lightning. It has two types of occurrences: slow-onset and rapid-onset. a.1. Slow-onset – occurrences that can be predicted in advance (such as tropical storms) and unfold over months or even years (such as drought). a.2. Rapid-onset – occurrences that cannot be predicted far in advance, trigger rapid-onset disasters (earthquakes, cyclones and other windstorms, landslides and avalanches, wildfires, floods and volcanic eruptions are usually categorized as rapid-onset events. The warning time ranges from seconds or at best a few minutes in the case of earthquakes and many landslides, to several days in the case of most storms and floods. Some volcanic eruptions may be preceded by weeks or months of activity but predicting volcanoes' behavior remains very difficult. Concerned agencies may not have ample time to give warnings for catastrophic eruptions). b. Human-induced disaster – the devastating effect of a human-made hazard, such as fire, terrorism, war, armed conflicts / social disorganization, industrial accidents, greenhouse effects, deforestation, that result in negative effects on people, property and/or the environment. It involves an element of human intent, negligence, or error; or a failure of a man-made system.
Disaster Preparedness	The knowledge and capacities developed by governments, professional response and recovery organizations, communities and individuals to effectively anticipate, respond to, and recover from, the impacts of likely, imminent or current hazard events or conditions. (Preparedness actions aim to build the capacities needed to efficiently manage all types of emergencies and achieve orderly transitions from response to sustained recovery. Preparedness is based on a sound analysis of disaster risk and good linkages with early warning systems, and includes such activities as contingency planning, stockpiling of equipment and supplies, the development of arrangements for coordination, evacuation and public information, and associated training and field exercises. These must be supported by formal institutional, legal and budgetary capacities) (RA 10121).

Standard Operating Procedure (SOP)

Disaster Response and Early Recovery	Any concerted effort by two or more agencies, public or private, to provide assistance or intervention during or immediately after a disaster to meet the life preservation and basic subsistence needs of those people affected and in the restoration of essential public activities and facilities in the early recovery stage. It entails "the provision of emergency services and public assistance during or immediately after and in the early recovery stage of a disaster in order to save lives, reduce health impacts, ensure public safety, and meet the basic subsistence needs of the people affected. Disaster Response and Early Recovery is predominantly focused on immediate, short-term needs and is sometimes called 'disaster relief and provision of other assistance while transitioning the response and early recovery efforts to recovery and rehabilitation'" (RA 10121 and NDRRMC Resolution No. 09 Series of 2021).
Disaster Risk Reduction (DRR)	The concept and practice of reducing disaster risks through systematic efforts to analyze and manage the causal factors of disasters, including through reduced exposures to hazards, lessened vulnerability of people and property, wise management of land and the environment, and improved preparedness for adverse events (RA 10121).
Disaster Incidents of Similar Type / Nature	Pertains to a situation wherein two or more disaster incidents of similar type or nature (i.e. hydro-meteorological) have transpired within the same locality and within the same time.
Disaster Incidents of Different Type / Nature	Pertains to a situation wherein two or more disaster incidents of varied type or nature (i.e. southwest monsoon and fire or earthquake) have transpired within the same period of the first event / incident, and in the same location.
Displaced Families and Persons	Refers to the number of displaced populations staying inside the evacuation centers with their families, relatives, or friends. Data presented should be age and sex-disaggregated.
Distribution of Food and Non-Food Items and Cash	Food, non-food, and cash assistance are distributed to the families affected by any disaster.
Distribution of Housing Financial Assistance to affected families	An initiative to provide affected families with financial assistance to help them in their recovery post-disaster. Deploy a Shelter Response Team in the disaster-affected areas to conduct the following activities: 1) Assess the emergency shelter needs of affected communities and set targets for prioritization. 2) Regional Shelter Response Team to validate the number of affected families. 3) Distribution of emergency shelter assistance to affected families.
Emergency Operation Center (EOC)	The facility mandated by RA 10121 to be established in every DRRMC that shall be operated and staffed on a twenty-four (24) hour basis for coordination work on DRRM. The EOC supports and helps coordinate Incident Command Post (ICP) operations and any other adjacent incident operations.
Early Recovery	A multidimensional process of recovery that begins in a humanitarian setting. It is guided by development principles that seek to build on humanitarian programs and catalyze sustainable development opportunities (IRR of RA 10121).
Flooded Areas	A situation in which an area is covered with water, especially those catch basins due to continuous rains.

Standard Operating Procedure (SOP)

Geographically Isolated and Disadvantaged Areas (GIDA)	Refer to communities with marginalized populations physically and socio-economically separated from the mainstream society and described to be: isolated due to distance, affected by extreme weather conditions and transportation difficulties island, upland, lowland, landlocked, hard to reach, unserved or underserved communities, with high poverty incidence, presence of vulnerable sector, or currently experiencing or recovering from a crisis situation.
Hazard	A dangerous phenomenon, substance, human activity or condition that may cause loss of life, injury or other health impacts, property damage, loss of livelihood and services, social and economic disruption, or environmental damage (RA 10121).
Humanitarian Assistance and Disaster Response (HADR)	Decisions and actions taken during and after disaster, including immediate relief, rehabilitation, and reconstruction.
Incident	An occurrence, caused by either human or natural phenomena, that requires immediate response actions to prevent or minimize loss of life, or damage to property and the environment.
Incident Command Post (ICP)	This refers to the command post located at or near the incident site and is the center for the management of on-scene and tactical operations. Planning and communications could also be coordinated from this location.
Incident Report (IR) Form	Incident Report Form used by the Department of Education.
Infographics	A visual image with chart/diagram/graph/map used to represent information or data.
Injured Individuals	An injured individual is a person physically harmed or wounded as a result of a disaster.
Internally Displaced Persons (IDPs)	Refer to the persons (or groups of persons) who have been forced or obliged to flee or to leave their homes or places of habitual residence as a result of or in order to avoid the effects of natural or human-induced hazards, and who have not crossed an internationally recognized border.
List of affected farmers	This data is to identify the number of affected farmers with partially and totally damaged areas in hectares and to classify the beneficiaries. Farmers refer to those who cultivate.
List of affected animal raiser	This data is needed to account farmers/ animal raisers with various farm animals, its corresponding number of heads and its equivalent values in Pesos.
List of the affected fisherfolks	This data is needed to account for the fisherfolk affected during the disaster and to identify the beneficiaries for the early recovery.
List of affected coconut farmers	This data accounts all the number of coconut farmers affected, the number of hectares and the number of trees that were damaged during the disaster.
List of affected farmers with damage farm machineries, irrigation facilities and other farm infrastructure projects	This data is important to identify all farmers with damaged farm machineries, irrigation facilities and other farm infrastructure projects during disasters.
List of evacuees	Names of the affected population in the evacuation centers.
List of affected populations confined at the hospital(s)	Names of affected populations confined at the hospital/s.

Standard Operating Procedure (SOP)

Logistical Support / Augmentation	The process of planning, implementing, and controlling the efficient and effective flow of goods, services, and people from one point to another pre, during, and post-disaster phase.
Missing (Confirmed)	Number of confirmed missing (those with Philippine National Police reports only).
Missing (for Verification and Validation)	Number of missing persons for verification and validation (without police reports but were reported by concerned family members/relatives). Verification- A process where information of a casualty in a disaster event is being confirmed through investigation and official channels. This can only be proved through a Philippine National Police Spot and/or Progress Reports and as reflected in the Local Disaster Risk Reduction Management Office's Situational Report. Validation- A process where the verified reported casualty in a disaster event is confirmed through a scientific method that determines the death of the casualty is directly and/or indirectly related to the disaster event/ This can be proved through the issuance of the Death Certificate.
Missing and Found Alive	Number and names of missing persons who were later found alive.
Needs of Local Government Units	Identified short and long-term needs of the affected Local Government Units that need augmentation from the responding National Government Agencies.
Now	Refers to the current number of displaced families/persons that are either inside or outside the evacuation centers and the current number of opened evacuation centers.
Overlapping Incidents	Situations wherein two types of disasters occur simultaneously within the same location. These are the common overlapping incidents.
Photo Documentation	These are pictures with summarized descriptions/ captions of the response actions undertaken by the Non-Government Organizations/ National Government Agencies/ Local or Provincial Government Units/ Civil Society Organizations in the provision of various forms of assistance to affected families and persons.
Planned Events	Scheduled activities or celebrations that involve an influx of a large crowd or population.
Post-Disaster Needs Assessment (PDNA)	An internationally accepted methodology for determining the physical damages, economic losses, and costs of meeting recovery needs after a natural disaster through a government-led process.
Power Interruption	An interruption in the supply of electricity.
Predictive Analytics for Humanitarian Response (PAHR)	A machine learning tool that makes predictions on potential disaster events to prepare humanitarian responses using mathematical theories, scientific processes, and spatial technologies based on current and historical data.
Pre-emptive Evacuation	An initiative to move families / persons to a safe place prior to the landfall of a typhoon, or in anticipation of a hazardous event.
Rapid Damage Assessment and Needs Analysis (RDANA)	A disaster response mechanism that is used immediately in the early emergency phase to determine the extent of impacts and assess the priority needs of the communities.
Recommendations	Part of the Narrative Report that concerns recommendations and areas for improvement of disaster response and early recovery operations.
Red (Full Alert)	Signifies the highest level of readiness in anticipation of an imminent emergency situation, or in response to a sudden onset of disaster. In this condition, all human and material resources are made available for duty and deployment. This may result in the activation of the Response and

Standard Operating Procedure (SOP)

	Early Recovery Cluster and National/ Regional/ Provincial/ Local Incident Management Team (NIMT) including the escalation of the highest level of response. As such, inter-cluster action planning is done during this status.
Rehabilitation	These are measures that ensure the ability of affected communities and areas to restore their normal level of functioning by rebuilding livelihood and damaged infrastructures and increasing the communities' organizational capacity.
Relief Operations	The immediate provision of the essential and appropriate humanitarian response to those affected by a disaster, based on rapid needs assessment. This consists of the delivery of specific quantity and quality of goods - either food or non-food items; or both - to a quantified group of beneficiaries, duly recorded and accounted for.
Rescue Operation	Rescued during the onslaught and the after-effects of a disaster.
Risk Assessment	A methodology to determine the nature and extent of risk by analyzing potential hazards and evaluating existing conditions of vulnerability that together could potentially harm exposed people, property, services, livelihood and the environment on which they depend. Risk assessments with associated risk mapping include: a review of the technical characteristics of hazards such as their location, intensity, frequency and probability; the analysis of exposure and vulnerability including the physical, social, health, economic and environmental dimensions; and the evaluation of the effectiveness of prevailing and alternative coping capacities in respect to likely risk scenarios.
Situation Overview	A portion of the harmonized narrative report that gives a brief and concise information about the incoming disaster event and its possible effects that affected families have to be prepared for. This information is usually coming from official Warning Agencies (Phivolcs, PAGASA). As the report progresses, only the latest updated information about the disaster or event being monitored is noted, based on updates from Warning Agencies.
State of Calamity	A condition involving mass casualty and/or major damages to property, disruption of means of livelihoods, roads, and normal way of life of people in the affected areas as a result of the occurrence of natural or human-induced hazards.
Status of Bridges	A situation where the constructed connected wideway either hanging or not leads from one place to another that vehicles and trucks use in disaster operations is being monitored if damaged or operational.
Status of Dams	A situation where the constructed barrier that holds back water is being monitored if damaged or operational.
Status of Human Resource Capacities	The part of the report presents the number of personnel who are on standby and available anytime for emergency response deployment.
Status of Roads	A situation where the constructed wideway leads from one place to another that vehicles and trucks use in disaster operations is being monitored if damaged or operational.
Status of Seaports	A situation where the constructed harbor for seagoing ships used in disaster operations is being monitored if damaged or operational.
Status of Stranded Passengers	This data refers to the number of affected travelers in airports, sea ports, or transport terminals as verified by the LGU or the Philippine Coast Guard. Data presented should be age and sex-disaggregated.
Stockpile of Food and Non-Food items	An Inventory of Food and Non-Food items prepositioned and ready for distribution: *Family Food Packs - a core response modality of the Philippine

Standard Operating Procedure (SOP)

	Government in terms of food assistance ready for distribution to possible affected families by any disaster. This is a composition of raw materials such as but not limited to rice, canned goods, instant coffee, cereal drinks, or noodles that can feed a family of 5 members good for 2 days consumption. *Non-Food Items - humanitarian relief items other than food that are essential for the survival and protection of the affected by disaster.
Suspension of classes	Temporary cancellation of scheduled educational activities during natural disasters and calamities.
Telecommunications Service Provider Status	Mobile signal status of a Telecommunications Service Provider (Call, Text, and Data services of Smart, Globe, DITO).
Vetted Rapid Assessment of Damages Report	The Rapid Assessment of Damages Report and OM – Operations Manual are vetted reports used by the Department of Education.
Weather Condition	The atmospheric conditions that comprise the state of the atmosphere in terms of temperature, wind, clouds, and precipitation.
White (Normal Operations)	Refers to regular or normal operations, and monitoring, and reporting. The personnel of the Local, Provincial, Regional, and National Disaster Risk Reduction and Management Council shall be operating based on their mandates.

IV. Reporting Process and Flow Chart

Figure 1. Reporting Process and Flow Chart

Based on Figure 1. Reporting Process and Flow Chart, the following data collection and reporting flow is prescribed:

Standard Operating Procedures (SOP)

PRE DISASTER PHASE
NOTIFICATION
GATHER DATA/ VALIDATION
ACCOMPLISH FORM A: PRE-EMPTIVE DATA
C/MDRRMOs
ACCOMPLISH FORM B: EVACUATION CENTER FACILITIES

SUMISSION OF CONSOLIDATED REPORT TO NDRRMC

III.1. Pre Disaster Phase

1. The PAGASA/NDRRMC and/or any concerned agency shall notify the identified LGU to prepare/gather necessary data prior to the disaster and accomplish the following forms:

- Form A: Pre-emptive Data *(to be accomplished by C/MDRRMO)*
- Form B: Evacuation Center Facilities *(to be accomplished by C/MSWDO)*
- Form C: Inventory of Resources *(to be accomplished by C/MDRRMO)*

2. If data in Forms A-C has been validated, the concerned office shall submit these accomplished forms to the LDRRMC for consolidation.

   If data needs further validation, the concerned office shall go back to Step No. 2 which is Data Gathering/Validation.

3. Once the LDRRMC has consolidated all data from Forms A-C, the final data shall be submitted by the C/MDRRM Officer to the Provincial/Regional DRRM Council.

Note: *For rapid on-set disasters such as fire, earthquake, among others, the abovementioned reporting process may be done during disaster.*

III.2. During Disaster Phase

1. During the disaster, the concerned offices of the LGU shall accomplish the following forms:

   - Form D: No. of Affected *(to be accomplished by C/MSWDO)*
   - Form E: Displacement Data *(to be accomplished by C/MSWDO)*
   - Form F: No. of Affected Agricultural Sectors *(to be accomplished by C/MAO)*
   - Form G: Status of Telecommunications *(to be accomplished by C/MDRRMO)*
   - Form H: Status of Lifeline Structures *(to be accomplished by DPWH Regional Office VIII - national roads, C/MDRRMO - barangay and municipal roads)*

2. If data in Forms D-H has been validated, the concerned office shall submit these accomplished forms to the LDRRMC for consolidation.

   If data needs further validation, the concerned office shall go back to Step No. 2 which is Data Gathering/Validation.

3. Once the LDRRMC has consolidated all data from Forms D-H, the final data shall be submitted by the C/MDRRM Officer to the P/RDRRMC.

   Note: *During Disaster Phase*

III.3. Post Disaster Phase

1. After the disaster, the concerned offices of the LGU shall accomplish the following forms:
   - Form I: No. of Injured Persons (to be accomplished by C/MHO)
   - Form J: Management of the Dead and Missing *(to be accomplished by*

Standard Operating Procedure (SOP)

C/MLGOOs)

- Form K: Damaged Houses and Relief Operations *(to be accomplished by C/MDRRMO and C/MSWDO)*
- Form L: Total Served Population *(to be accomplished by C/MSWDO)*

2. If data in Forms I-L has been validated, the concerned office shall submit these accomplished forms to the LDRRMC for consolidation.

   If data needs further validation, the concerned office shall go back to Step No. 2 which is Data Gathering/Validation.

3. Once the LDRRMC has consolidated all data from Forms I-L, the final data shall be submitted by the C/MDRRM Officer to the P/RDRRMC.

V. Procedures of Reporting

In this Table 2, the conditions and triggers in raising the alert status shall be observed by the councils at all levels for consistency and uniformity of activation.

Table 2: Conditions and Triggers in Raising the Alert Status

Conditions and Triggers in Raising the Alert Status			
Hazards	**Conditions and Triggers** (Either 1 of the listed triggers / conditions and result of PDRA and/or NDRRMC Meetings)		
	White Alert	**Blue Alert**	**Red Alert**
Natural Hazards			
1. Tropical Cyclone (TCs) 1.1 Flooding 1.2 Storm Surge 1.3 Severe Wind	- Weather Advisories from PAGASA	- Result of the conduct of PDRA - Severe Weather Bulletin (SWB) from PAGASA - Expected to enter the PAR Tropical Depression (TCWS #1)	- Severe Weather Bulletin (SWB) from PAGASA - Location: within PAR - Tropical Storm (TCWS #2) - Severe Tropical Storm - Typhoon - Super Typhoon
2. Other Weather Disturbances 2.1 Monsoon Rains 2.2 ITCZ 2.3 LPA 2.4 Tail-end of a cold front 2.5 Tail-end of a Frontal System	**-Rainfall Advisory from PAGASA (YELLOW Advisory)** - 7.5 - 15 mm RAIN observed in 1 hour and expected to continue in the next 2 hours - Flooding is possible	**- Rainfall Advisory from PAGASA (ORANGE Advisory)** - 15-30 mm RAIN observed in 1 hour and expected to continue in the next 2 hours - Flooding is threatening - Two (2) or more regions are affected	**- Rainfall Advisory from PAGASA (RED Advisory)** - More than 30 mm RAIN observed in 1 hour and expected to continue in the next 2 hours - Serious flooding expected in low-lying areas - Two (2) or more regions are affected
3. El Niño and La Niña	-El Niño/La Niña Watch Alert -Climate Outlook	-Needs mobilization of national resources for immediate response operations	-Needs extensive mobilization of natural resources for immediate response operations

Standard Operating Procedure (SOP)

4. Volcano Alert	- Normal - Quiet - No eruption foreseeable in the future	- Increased tendency towards hazardous eruption	- Alert Level Four (4) - Hazardous eruption imminent
5. Earthquake	- No reported damage - Not expecting aftershocks - No Tsunami Threat	Intensity VI - Minor Sea Level Disturbance	Intensity VII and above - Tsunami Warning
6.Tsunami 5.1 Regional / Distant 6.1 Regional / Distant 6.2 Local	- A large earthquake is generated but either (1) there is no tsunami generated by the event of (2) a tsunami was generated but will not reach the Philippines -No evacuation - No Tsunami Threat - A large earthquake is generated but (1) there is no tsunami generated by this event or (2) a tsunami was generated but will not reach the Philippines - Sea Level Change Monitoring - Sea level changes and updates	- Minor sea level disturbance is expected in some coastal areas with wave heights of less than one (1) meter above the expected ocean tides - Sea Level Change Monitoring - Sea level changes and updates	- Destructive tsunami is generated with life threatening wave heights and is expected to arrive to Philippine coastlines with waveheights of greater than one (1) meter above the expected ocean tides - Sea Level Change Monitoring - Monitor sea level changes and updates - Very destructive - Requires immediate response
7.Tornado / Thunderstorm	- Declaration of Local State of Calamity - Thunderstorm Warning Advisory		
Human-Induced Incidents			
8. Armed Conflict, Civil Strife, Rido or Clan Feuds		- Prepositioning of national assets as augmentation to regional assets	- National leads the movement and deployment of national assets and actions on the ground
9. Fire, Conflagration			Mobilization of resources will depend on the level of fire alarm.
10. Maritime Incidents (e.g. Maritime pollution, Ship Collision, Sunken Vessel)		- Upon receipt of information of sunken vessel or maritime incident - Needs mobilization of national resources for response operations	- Needs extensive mobilization of natural resources for response operations
11. Aviation Incidents /		- Needs mobilization of	- Needs mobilization of

Standard Operating Procedure (SOP)

Accidents		national resources for response operations	national resources for response operations
12.Land/Rail Accidents		- Needs mobilization of national resources for response operations	- Needs mobilization of national resources for response operations
Natural Hazards			
13.Chemical / Biological / Radiological / Nuclear Explosive (CBRNe)		- Result of the conduct of PDRA - Pronouncement of countries within Asia-Pacific region on any CBRNE testing/launching which will likely pass through or hit PAR - Upon receipt of information that an establishment / group of people are affected by CBRNE - For biological needs mobilization of national resources for response operations	- Needs mobilization of national resources for response operations
14.Disease Epidemic / Outbreak		- Recommendation from DOH & DA (BFAR, BAI and BPI) (Animal / Fishery /crop outbreaks) - Needs mobilization of national resources for response operations	- Needs extensive mobilization of national resources for response operations
Other			
15. Special Events (e.g. Religious events and Holidays and other high profile / high density gatherings)		- Scheduled special events in NCR or Nationwide	- Occurrence of incidents that concern the national security and require National Response - Agreed event escalation and triggers by authorized groups such as the Joint Task Force Group Emergency Preparedness (JTGEP)

Note: The heightening of Alert Status may also be triggered if an incident / accident concerns national security and/or involves a political/high-profile personality.

IV.1. Harmonized Disaster Reporting Template

This is a tool crafted by members of the RDRRMC for coordinated and standardized reporting. It records both natural or human-induced disaster incidents that have occurred or will occur which details the preparedness, response, early recovery actions, and disaster management for the areas affected or to be affected. It is accompanied by a Narrative and Detailed Breakdown report.

It aims to simplify the reporting tool and mechanism of the Local Government Units for a more systematic presentation from local to national level.

IV.2. Reportable Event

Standard Operating Procedure (SOP)

Reportable Disaster Events:

- Weather disturbance to enter/within PAR which will directly hit the region as forecast by PAGASA.
- Hydrometeorological phenomena and its associated events.
- El Niño and La Niña
- Occurrence of Magnitude 5.0 (Refer to PhiVOLCS) earthquake or higher on land or Magnitude 8 earthquake or higher on water near land.
- Tsunami
- Occurrence of human-induced disasters
- Increased unrest of Volcano or volcano eruption
- Emerging and re-emerging infectious diseases
- Fire/conflagration
- Armed Conflict, Civil Strife, Rido or Clan Feuds

IV.3. Criteria/Triggering Factor

The warning agencies e.g. PAGASA for weather disturbances, PHIVOLCS for volcano activities and earthquake, and response agencies for human-induced hazards shall recommend the raising of alert levels of the EOCs. The recommendation shall be forwarded to the RDRRMC, for approval and/or as agreed during the PDRA meeting. Raising of alert levels may be declared either by the RDRRMC or by the Local Government Unit, through the issuance of an RDRRMC Memorandum or an Executive Order, within their respective area of responsibility upon the recommendation of their respective LDRRMCs.

Upon raising of the BLUE Alert due to the possible effects of a hazard and/or initiating an emergency response operation, the Local Government Units through the Local DRRM Emergency Operations Center (EOC) will utilize and implement the Harmonized Reporting Template.

IV.4. Types of Harmonized Report

IV. 4.a. Pre-Disaster Report - is a report submitted when there is an impending hazard or a planned event to be monitored. Submission of Preparedness for Response Report/s starts when the Local Disaster Risk Reduction and Management Council (LDRRMC) calls for a Pre-Disaster Risk Assessment (PDRA) meeting.

In case of non-availability of data due to any circumstances, the LGU may utilize its current and baseline data.

The LGU report shall highlight its preparedness actions to respond to the impending hazard or a grand event being monitored.

The LGU report shall be a consolidation of the preparedness reports of the affected areas and shall also include its response and early recovery capacity.

Reports shall use the Narrative Report and Detailed Breakdown Report format with the following contents:

- Actions taken by the Local / Provincial Government Unit
- Assistance Provided
- Distribution of Food and Non-Food Items

Standard Operating Procedure (SOP)

- Disaster Online Reporting and Monitoring System (DORMS)
- Flooded, Landslide, and Rock Slide / Soil Erosion
- Logistical Support / Augmentation
- Pre-emptive Evacuation
- Photo Documentation
- Power Interruption
- Status of Airports, Seaports and Terminals
- Status of Bridges
- Status of Dams
- Status of Electricity
- Status of Roads
- Status of Seaports
- Status of Water Supply
- Status of Telecommunications Service Provider
- Status of Stranded Passengers
- Inventory of Mobility Assets (Human Resource and Equipment)
- Stockpile of Food and Non-Food items
- Weather Condition
- Whether the LGU has declared a State of Calamity in their AOR
- Whether the LGU has cancelled Classes in their AOR
- Whether the LGU has cancelled Work in their AOR

IV.4.b. During Disaster Report - is a report submitted by the LGUs after the onset of a disaster and the ongoing Humanitarian Assistance and Disaster Relief (HADR), Response and Early Recovery Operations. It must contain immediate feedback and an estimate of the affected population needing urgent response. Estimates shall be validated immediately in coordination with the C/MDRRM Council Members.

Reports shall use the Narrative Report and Detailed Breakdown Report format with the following contents:

- Situation Overview
- Affected Families and Persons
- Displaced Families and Persons
- Damaged Houses
- Cost of Assistance
- Photo Documentation
- Suspension of classes
- Logistical Support / Augmentation
- Assistance Provided
- Needs
- Rescue Operation
- Injured Individuals
- Identified Missing
- Telecommunications Service Provider Status
- Tally of Totally and Partially Damaged Houses
- Dead Body (Confirmed)
- Dead (for Verification and Validation)
- Missing (Confirmed)
- Missing (for Verification and Validation)
- Missing and Found Alive
- List of evacuees
- List of affected population confined at the hospital(s)
- Weather Condition

Standard Operating Procedure (SOP)

- Actions taken by the LGU
- Whether the LGU has declared a State of Calamity in their AOR
- Whether the LGU has cancelled Classes in their AOR
- Whether the LGU has cancelled Work in their AOR
- Status of Power Interruption
- Status of Dams
- Status of Roads
- Status of Bridges
- Status of Stranded Passengers
- Status of Seaports
- Inventory of Mobility Assets (Human Resource and Equipment)
- Flooded Areas
- Disaster Online Reporting and Monitoring System (DORMS)
- List of affected farmers
- List of affected animal raiser
- List of the affected fisherfolks
- List of affected coconut farmers
- List of affected farmers with damage farm machineries, irrigation facilities and other farm infrastructure projects

IV.4.c. Post Disaster Report - is the report submitted by the LGUs after all the Humanitarian Assistance and Disaster Relief (HADR), Response and Early Recovery Operations conducted.

Reports shall use the Narrative Report and Detailed Breakdown Report format with the following contents:

- Situation Overview
- Affected Families and Persons
- Displaced Families and Persons
- Damaged Houses
- Cost of Assistance
- Photo Documentation
- Stockpile of Food and Non-Food items
- Distribution of Food and Non-Food Items
- Vetted Rapid Assessment of Damages Report
- Incident Report (IR) Form
- Logistical Support / Augmentation
- Assistance Provided
- Needs
- Rescue Operation
- Injured Individuals
- Identified Missing
- Retrieved Cadavers/Dead
- Telecommunications Service Provider Status
- Tally of Totally and Partially Damaged Houses
- Distribution of Housing Financial Assistance to affected families
- Dead Body (Confirmed)
- Dead (for Verification and Validation)
- Missing (Confirmed)
- Missing (for Verification and Validation)
- Missing and Found Alive
- List of evacuees
- List of affected population confined at the hospital(s)
- Weather Condition

Standard Operating Procedure (SOP)

- Actions taken by the LGU
- Whether the LGU has declared a State of Calamity in their AOR
- Whether the LGU has cancelled Classes in their AOR
- Whether the LGU has cancelled Work in their AOR
- Status of Power Interruption
- Status of Dams
- Status of Roads
- Status of Bridges
- Status of Seaports
- Inventory of Mobility Assets (Human Resource and Equipment)
- Flooded Areas
- Disaster Online Reporting and Monitoring System (DORMS)
- List of affected farmers
- List of affected animal raiser
- List of the affected fisherfolks
- List of affected coconut farmers
- List of affected farmers with damage farm machineries, irrigation facilities and other farm infrastructure projects

IV.4.d. Terminal Disaster Report - is the last report submitted by the LGUs after all the Humanitarian Assistance, Disaster Relief (HADR) and other cash assistance provided during response and early recovery stage conducted.

Reports shall use the Narrative Report and Detailed Breakdown Report format with the following contents:

- Situation Overview
- Affected Families and Persons
- Displaced Families and Persons
- Damaged Houses
- Cost of Assistance
- Photo Documentation
- Stockpile of Food and Non-Food items
- Distribution of Food and Non-Food Items
- Vetted Rapid Assessment of Damages Report
- Incident Report (IR) Form
- Logistical Support / Augmentation
- Assistance Provided
- Needs
- Rescue Operation
- Injured Individuals
- Identified Missing
- Retrieved Cadavers/Dead
- Telecommunications Service Provider Status
- Inventory of Mobility Assets (Human Resource and Equipment)
- Tally of Totally and Partially Damaged Houses
- Distribution of Housing Financial Assistance to affected families
- Dead Body (Confirmed)
- Dead (for Verification and Validation)
- Missing (Confirmed)
- Missing (for Verification and Validation)
- Missing and Found Alive
- List of evacuees
- List of affected population confined at the hospital(s)
- Weather Condition

Standard Operating Procedure (SOP)

- Actions taken by the LGU
- Whether the LGU has declared a State of Calamity in their AOR
- Whether the LGU has cancelled Classes in their AOR
- Whether the LGU has cancelled Work in their AOR
- Status of Dams
- Status of Roads
- Status of Bridges
- Status of Power Interruption
- Status of Seaports
- Flooded Areas
- Disaster Online Reporting and Monitoring System (DORMS)
- List of affected farmers
- List of affected animal raiser
- List of the affected fisherfolks
- List of affected coconut farmers
- List of affected farmers with damage farm machineries, irrigation facilities and other farm infrastructure projects

VI. Frequency of Reporting

In this table 3, the frequency and time of reporting shall be follow by the Local, Provincial and Regional DRRM Councils:

Table 3: Frequency of Reporting

Alert Status	LGU-level (LGU to Province)	Provincial-level (Province to Region)	Regional-level (Region to Central Office and NDRRMC)
White	**on or before 6:00 AM and 6:00 PM** **The LGU shall consolidate and submit the Disaster Report on or before the said allotted time above*	**on or before 7:00 AM and 7:00 PM** **The Province shall consolidate and submit the Disaster Report on or before the said allotted time above*	**8:00 AM and 8:00 PM** **The Region shall consolidate and submit the Disaster Report on or before the said allotted time above*
Blue and Red	**09:00 AM and 07:00 PM**	**10:00 AM and 10:00 PM**	**12:00 NN and 12:00 MN**

VII. Checklist of Data, Information and Photo Requirements per Phase

In this table 4, the following required data, information and photo per phase shall be the basis of Local, Provincial and Regional DRRM Councils in the preparation of their reports:

VIII. Legal Basis

VII.1. Republic Act Issuances

VII.1.a. Republic Act 10121: An act strengthening the Philippine Disaster Risk Reduction and Management System, providing for the National Disaster Risk Reduction and Management Framework and institutionalizing the National Disaster Risk Reduction and Management Plan.

VII.1.b. Republic Act 10821 or the Children's Emergency Relief and Protection Act sets a standard of accountability to children in terms of protection and provision of their needs before, during, and after a disaster.

VII.1.c. Republic Act 1190: An act to provide for civil defense in times of war and other national emergencies, creating a national civil defense administration, and for other purposes.

VII.1.d. Republic Act 10654: Act of prevention, deter & eliminate illegal. unreported & unregulated fishing.

VII.1.e. Republic Act 10593: An act provides protection to affected coconut farmers and regulations of cutting of coconut trees, its replenishment and providing penalties thereof.

VII.1.f. Republic Act 10601: An act of promoting agricultural & fisheries mechanization development, AFMech Law of 2013 and AFMA & Engineering Law of 1998.

VII.1.g. Republic Act. 7160. Local Government Code of 1991.

VII.1.h. Republic Act. 9993 - The Philippine Coast Guard Law of 2009: An act establishing the Philippine Coast Guard as an armed and uniformed service attached to the Department of Transportation and Communications.

VII.2. National Disaster Risk Reduction Management Council (NDRRMC) Issuances

VII.2.a.NDCC Circular No. 5, Series of 2007 and No. 04, Series of 2008 (as amended): Institutionalized the Cluster Approach in the PDRRM Systems, Designated Cluster Leads and defined their Terms of Reference at the National, Regional, and Provincial Levels.

VII.2.b. NDRRMC Memorandum Circular No. 23, Series of 2014: Orders the Implementation of the National Disaster Response Plan and directs NDRRMC member-agencies to implement identified preparedness activities towards the realization of an effective and responsive disaster and emergency response.

VII.2.c. NDRRMC Memorandum Circular No. 19, Series of 2016: Rules and Regulations Governing the Implementation of the Management of the Dead and Missing Persons.

VII.2.d. NDRRMC Memorandum Circular No. 109, Series of 2020 dated 10 December 2020: Adoption of Streaming of NDRRMC Response Cluster Report.

Standard Operating Procedure (SOP)

VII.2.e. NDRRMC Resolution No. 09, Series of 2021: Expanding the coverage of Disaster Response up to Early Recovery.

VII.2.f. NDRRMC Memorandum Circular No. 01, Series of 2022 on 6 January 2022: Establishing the Shelter Cluster at the NDRRMC and RDRRMC Levels and designating the Department of Human Settlements and Urban Development (DHSUD) as the head cluster.

VII.2.g. NDRRMC Memorandum Circular No. 05, Series of 2022: Aimed to expand the organization and functions of the Shelter Cluster.

VII.3. Response and Early Recovery Cluster Lead Agencies Issuances

VII.3.a. DSWD Memorandum Circular No. 20 Series of 2019: Disaster Response Operations Monitoring and Information Center (DROMIC) Guidelines

VII.3.b. DSWD Administrative Order No. 30, Series of 2004: Guidelines on the Management of the Disaster Response Operations Monitoring and Information Center (DROMIC)

VII.3.c. DSWD Administrative Order No. 02, Series of 2021: Omnibus Guidelines on Food and Non-Food Item and Logistics Management for Disaster Operations

VII.3.d. DepEd Order No. 21 series of 2015: Disaster Risk Reduction and Management Coordination and Information Management Protocol

VII.3.e. DepEd Order No. 37 series of 2022: Guidelines on the Cancellation or Suspension of Classes and Work in Schools in the Event of Natural Disasters, Power Outages / Power Interruptions, and Other Calamities

VII.3.f. OCD Memorandum No. 572

VII.3.g. OCD Memorandum No. 782, Series of 2022

VII.3.h. **DILG Memorandum Circular No. 2015-76:** Early Preparedness Actions to Reduce Disaster Risks

VII.3.i. DPWH Memorandum Order 27 series 2023: DPWH Disaster and Incident Management Operations Manual

VII.3.j. HPCG Memorandum Circular No. 02-2013: Guidelines on Movement of Vessels during Heavy Weather

VII.3.k. DA Special Order No. 612-2019: Designation to DA-RFO8 Command Center

IX. Roles and Responsibilities

On this table 5, the roles and responsibilities of the concerned offices/persons/cluster.

Table 5: Roles and Responsibilities

Standard Operating Procedure (SOP)

Council/ Response and Early Recovery Cluster Agency / Office / Responsible Person	Roles and Responsibilities
National Disaster Risk Reduction and Management Office (NDRRMO)	Serves as the President's adviser on disaster preparedness programs, disaster operations and rehabilitation efforts undertaken by the government and the private sector. It acts as the top coordinator of all disaster management and the highest allocator of resources in the Philippines.
Regional Disaster Risk Reduction and Management Office (RDRRMO)	Provides augmentation support to the disaster preparedness programs, disaster operations and rehabilitation efforts undertaken by the government and the private sector. It acts as the coordinator of all disaster management and the regional allocator of resources.
Provincial Disaster Risk Reduction and Management Office (PDRRMO)	Helps Local Government Units and the community to understand climate change and the hazards they face, to reduce their risks, to prepare for and respond to disasters as they occur, and recover from disasters while building back better and safer.
Local Disaster Risk Reduction and Management Office (LDRRMO)	The LDRRMO, within their territorial jurisdiction, shall be responsible for setting the direction, development, implementation, and coordination of disaster risk reduction and management programs
Local Chief Executive (LCE)	Responsible for the administration of the local authority.
Regional, Provincial, Local DRRM Council Members Agencies/Department/Office/Unit	Provide all necessary support align to their expertise and mandate that could help in the planning, monitoring, implementation, reporting, validation and other activities in pre, during and after disaster occurrence.
Department of Social Welfare and Development (DSWD) Response and Early Recovery Vice-Chair - Cluter Lead Agency for Camp Coordination and Camp Management (CCCM) - Cluter Lead Agency for Food and Non-Food Item (FNI) - Cluter Lead Agency for Internally Displaced Person Protection (IDP Protection)	DSWD as the lead cluster agency through the Disaster Response Assistance and Management Bureau will head and lead the the coordinating functions of the Cluster. Specifically, the DSWD will do the following for each Disaster Phase: **Pre-Disaster Phase** a. Shall alert all its QRTs, SWAD Team, PDOs at all levels (CO and FO and other DSWD personnel on the ground); b. Shall attend to the PDRA core group meeting; c. Prepare Predictive Analytics on Humanitarian Assistance; and d. Ensure that the regional stockpiles are ready for augmentation at the local level (inside evacuation

Standard Operating Procedure (SOP)

	center). e. Conduct meeting with FNFI/CCCM/Protection Cluster **During Disaster Phase** a. Monitoring on the status of all ECs opened including its facilities; b. Coordinate with LGU on the number of families evacuated inside ECs; c. Ensure that the EC Manager uses DAFAC as basis for masterlisting of evacuees; d. Coordination with the F/NFI Unit on the sufficient allocation of F/FNIs to evacuees inside ECs; e. Coordination with EC Managers if there are protection issues inside ECs being reported; f. Coordinate the mobilization of rapid assessment teams from the Field Offices; and g. Ensure availability of timely and accurate data/reports for information dissemination to cluster partners and as basis in provision of augmentation of assistance. h. Lead in the Response Cluster Meeting, CCCM/Protection Meeting and FNFI Meeting. **Post Disaster Phase** a. Assessment of evacuees on their movement to the transitional site; b. Listing of evacuees who will be prioritized for moving out to transitional site; c. Provision of TA to the LGUs on the construction of transitional site or bunk houses; d. Monitor the number of evacuees transferred to transitional site returned to places of origin and provided transportation assistance under the Balik-Probinsya Program; and e. Conduct PDNA together with concerned agencies.
Department of Health (DOH) Health Cluster Lead Agency	**1) Pre-Disaster Phase (Health-Public Health and Medical), WASH, Nutrition, and MHPSS)** a. Release alert memo to all Regional Offices and hospitals; b. Activate SMART InfoText; c. Activate command system in affected areas; d. Activate Operation Centers; e. Activate the health emergency response plan; f. Raise code alert in Regional Offices and hospitals as appropriate; g. Develop RDANA standards to be used by Regional Level

Standard Operating Procedure (SOP)

	h. Conduct inventory of logistics (both CO and ROs); i. Preposition logistics in ROs; j. Organize Stand-by Response Teams; k. Conduct continuous monitoring and dissemination of information updates; and l. Organize, attend and send representatives to cluster and other coordination meetings (e.g. PDRA) **2) During Disaster Phase (Health-Public Health and Medical)** a. Deploy teams to conduct Rapid Health Assessment (RHA); b. Deploy teams to evacuation centers and priority communities in affected areas; c. Augment logistics; d. Provide field treatment, first aid and pre-hospital care; e. Provide health services (e.g general consultation and treatment, immunization, reproductive health services, chemoprophylaxis, health education, promotion and advocacy including basic sanitation, nutrition and psychosocial support, etc); f. Activate referral system; g. Perform patient referral/conduction to health facilities; h. Provide hospital services; i. Activate surveillance and reporting systems; j. Conduct health facility assessment, immediate cleaning/clearing activities and repair to restore functionality; k. Provide continuous monitoring; and l. Organize, attend and send representatives to cluster and other coordination meetings (e.g. PDNA/DANA/DALA,etc) **During Disaster Phase (WASH)** a. Conduct Rapid WASH Assessment; 68 b. Augment WASH logistics (e.g. water containers, water disinfectants, hygiene kits, water testing reagents fund/supplies for toilet construction, and other WASH commodities); c. Augment provision of safe drinking water through the mobilization of water treatment units, water distribution tanks, and water storage tanks; d. Coordinate installation/construction of toilet facilities; repair/restoration of water facilities; hygiene promotion from WASH Cluster members and partners; e. Provide technical assistance in the installation and construction of toilet facilities; waste management; and vector control;

Standard Operating Procedure (SOP)

	f. Assist in continuous water quality monitoring; g. Continuous monitoring and reporting of WASH activities and services; and h. Organize, attend and send representatives to cluster and other coordination meetings (e.g. PDNA/DANA/DALA,etc) **During Disaster Phase (Nutrition)** a. Conduct Rapid Nutrition Assessment; b. Augment nutrition logistics (e.g. Vitamin A, multiple micro-nutrient packs, ferrous sulfate and folic acid, MUAC tapes, weighing scale, weight-for-height reference table, height board, breast-feeding kit); c. Coordinate the following with cluster members/partners: provision of ready-touse supplementary and therapeutic food (RUTF/RUSF); human milk banking; d. Assist in the conduct of general and blanket supplementary feeding; e. Coordinate the mobilization of nutrition assessment teams, infant feeding, and breast-feeding support groups; f. Assist in the referral of severely malnourished patients to appropriate facilities; g. Continuous monitoring and reporting of malnutrition cases and interventions; and h. Organize, attend and send representatives to cluster and other coordination meetings (e.g. PDNA/DANA/DALA,etc) **During Disaster Phase (MHPSS)** a. Conduct Rapid MHPSS Assessment; b. Augment psychotropic medications; c. Coordinate the mobilization of MHPSS teams; d. Assist in the following: provision of psychological first aid; activation of community and family support systems; and provision of other specialized MHPSS services; e. Assist in the referral of cases to higher level of care; f. Continuous monitoring and reporting of MHPSS cases and interventions; and g. Organize, attend and send representatives to cluster and other coordination meetings (e.g. PDNA/DANA/DALA,etc) **3) Post-Disaster Phase (Health – Public Health and Medical, WASH, Nutrition, and MHPSS)** a. Continue deployment of teams as necessary; b. Continue logistics provision as necessary;

Standard Operating Procedure (SOP)

	c. Continue provision of health, WASH, nutrition and MHPSS services; d. Continue monitoring of health conditions; e. Repair and rehabilitate damaged health facilities; f. Conduct post-incident evaluation; g. Document lessons learned and good practices; and h. Generate necessary reports
Philippine National Police (PNP) Law and Order Cluster Lead Agency	**1) Pre-Disaster Phase** a. May establish Command Post and Sub-Command Post in the possible affected area; Situational/regular conduct of police presence (Mobile, Motorcycle and foot patrol) at the possible area that may be affected; b. Review of the Crime Environment in the possible affected area; c. Participate in the conduct of PDRA (Regional, Provincial, City, Municipal and /or Barangay level); d. Prepare appropriate number of security personnel to identified evacuation areas in coordination with LGUs; e. Recommend to OCD to conduct trainings to improve inter-operability among member agencies; and f. Perform other tasks as directed. **2) During Disaster Phase** a. Activate the Law and Order Security Response Unit (SRU) with the established PNP Critical Incident Management Operational Procedures (CIMOP) in collaboration with member support agencies; b. Prioritize strategic support (land, air and sea transport with consideration of other response agencies); c. Prepare SRU based on the immediate requirements on the ground; d. Participate in the conduct of Rapid Damage and Needs Assessment (RDNA) (Regional, Provincial, City, Municipal and /or Barangay level); e. Establish coordination with the local DRRMCs; and f. Perform other tasks as directed **3) Post Disaster Phase** a. Submit Get reports on the damage assessments and Needs analysis of affected areas; b. Provide security to evacuation areas in collaboration with other agencies and force

Standard Operating Procedure (SOP)

	multipliers; c. Assist in the relief and recovery operations and maintain Law and Order to affected areas; d. Conduct debriefing and Post assessment review; and e. Perform other tasks as directed
Philippine International Humanitarian Assistance (PIHA) International Humanitarian Assistance	**1. Pre-Disaster Phase** Gather and disseminate the necessary relief and recovery and rehabilitation requirements and information to the international community. **2. During Disaster Phase** Ensure the implementation of the PIHA policy guidelines. **3. Post Disaster Phase** Ensure that information pertaining to the updates on the international humanitarian assistance to the international community
Office of Civil Defense (OCD) Cluter Lead Agency for Logistics	**1) Pre-Disaster Phase** a. Attend PDRA meetings; b. Convene cluster meetings; c. Inventory of resources (local and national) to identify gaps; and d. Pre-positioning of assets/resources. **2) During Disaster Phase** a.Receive and facilitate request for logistical support; b.Coordinate the transport of assistance with concerned agencies; c.Provide feedback to requesting DRRMCs/organizations; d.Institute a tracking system of all HA/DR assistance provided, including international donations for equipment and coordination; e.Identify prioritization of aid cargo as "must load"; f.Orchestrate information sharing; g.Confirmation of Traffic Status: Contact and confirm the following status of transport conditions: -DPWH and OCDRCs Concerned: Roads and Bridges Condition/Road Network. -ATO, Concerned Airline Companies: Domestic Flight Cancellation -NAIA, Concerned Airline Companies: International Flight Cancellation

Standard Operating Procedure (SOP)

	-PCG, Concerned Shipping Companies: Sea Transportation/Voyage Suspension - MRT, LRT, DOTC: Train Services Suspension - PNCC, DOTC: NLEX and SLEX Traffic Flow 94 h.In coordination with member agencies, recommend the transport of food, equipment, and personnel from supply points to destination mode; i.Coordinate with the IHAC for the provision of logistical support from the other countries, UN, ASEAN, and international organizations; j.Ensure the constant gathering of official reports and significant data; and k.Update assessment of roads, warehouses stocks, transport capacities to, from and within the affected areas. **c) Post Disaster Phase** a. Coordinate and request relevant agencies to provide Transportation Support when it is considered necessary and/or requested by local governments of affected areas; b. Coordinate the usage of hauling and delivery means for transport of such goods to affected areas based on the direction of N/RDRRMC; c. Consolidate reports and prepare cluster report; d. Update assessments of roads, warehouses, transport capacities to and from, and available logistic services; e. Deploy additional food and non-food items in disaster affected areas in coordination with OCDRCs and DSWD; f. Coordinate with concerned agencies the return of deployed resources (equipment & human resource); g. Provide data to PDNA Team when necessary; and h. Engage private agencies for transport assistance.
Bureau of Fire Protection (BFP) Search Rescue and Retrieval (SRR) Cluster Member Agency	**1) Pre Disaster Phase** a. Alert SRR teams for possible deployment for SRR operations; and b. Submit to the Cluster Lead a list of available government SRR Teams for immediate possible deployment **2) During Disaster Phase**

Standard Operating Procedure (SOP)

	a. Provide Special Rescue Force (SRF) for deployment in the affected areas in coordination with the National SRR Cluster Lead **3) Post Disaster Phase** a. Assist in the collapse structure operations; and b. Support other tasks as requested by the Chairperson, NDRRMC/Vice-Chairperson for Disaster Response.
Department of Education (DepEd) Cluster Lead Agency for Education	The Department of Education Cluster is the lead responding agency to the needs of affected learners and schools disasters. The safety of students and personnel during hazards, with or without early warning, is its top priority. The DepEd will do the following for each Disaster Phase: **1) Pre-Disaster Phase** a. Issue initial alerts and warnings as projected by relevant agencies (DOST-PAGASA, NDRRMC) to Field Offices; b. Attend Pre-Disaster Risk Assessment (PDRA) Meetings; c. Prepare baseline reports of projected affected areas (e.g. enrolment, classrooms, and personnel); d. Reinforce alerts issued to field offices and education cluster members as may be appropriate upon advice made by NDRRMC; e. Enforce the strict implementation of school safety and preparedness protocols, such as ensuring protection of education property; h. Adhere to the policies on suspension of classes based on DO 37 (s. 2022). If learners and personnel are already in school upon suspension, it should consider their safety before allowing them to leave the school premises; **2) During Disaster Phase** a. Attend PDRA and response coordination meetings; b. Closely coordinate with relevant government agencies (NDRRMC, OCD, DOST PAGASA, PHIVOLCS, DSWD, DOH, among others) to appropriately inform field offices on the possible occurrence of related events; c. Track key officials and personnel; d. Monitor the status of office operations in affected divisions and regions; e. Conduct rapid assessment to gather data on impact to education and generate reports; f. Monitor school operations such as class suspensions and

Standard Operating Procedure (SOP)

	schools used as Evacuation Center; g. Submit reports to Management for appropriate and immediate action from concerned offices; h. Monitor possible escalation of situation that may aggravate impact on learners, personnel, and properties; i. Prepare for the deployment/provision of resources (i.e. personnel, learning materials, support for Temporary Learning Spaces (TLS), psychosocial support and services); **3) Post Disaster Phase** a. Continuous tracking of key officials and personnel; b. Monitor school operations such as class suspensions and resumption, and schools used as Evacuation Center and decampment; c. Establish temporary learning spaces in affected schools and schools used as evacuation centers; d. Monitor the availability of areas for temporary learning spaces in affected schools; e. Mobilize appropriate educational interventions such as, but not limited to, the following: Psycho-social support and services; Teaching and learning materials; Conduct of life skill education and alternative delivery modes; School clean-up; Emergency feeding programs; Minor repairs of school facilities; and Life-saving supplies for education (health, nutrition, protection). Mobilize and facilitate appropriate personnel assistance; g. Attend NDRRMC coordination meetings; i. Conduct Post-Disaster Needs Assessment (PDNA) in coordination with other cluster members;
Department of Information and Communications Technology (DICT) Cluter Lead Agency for Emergency Telecommunication (ETC)	**I. Normal Operation** **REGIONAL AND PROVINCIAL**

Standard Operating Procedure (SOP)

	1. **‘Coordination with RDRRMC and PDRRMC.** Assigned personnel from the regional level and provincial level to actively participate in council meetings for close coordination with the member agencies. 2. **Coordination with ETC Members.** Conduct coordination and planning with ETC members and ROs of areas that will be affected by the disaster. 3. **Conduct of Inventory on Equipment/Asset.** Prepare all ICT and power equipment as well as MOVE vehicles and other essential needs of GETT personnel concerned for the establishment of on-site EOCs. 4. **Strategic Planning.** Conduct strategic planning for mobilization of GETT-MOVE vehicles and dispatch of ICT and power equipment to predetermined location/s. 5. **Platform Directory Services.** Provide a list containing the contact information of different ETC members as well as ICT key players, DRRM Officers, BFP, and PNP Hotlines per Locality. 6. **Test equipment and Vehicles.** Prepare the necessary equipment by conducting tests on their operability, ensuring the batteries are fully charged, pre-programming all radios to assigned disaster frequencies, and ensuring communications interoperability. For the MOVE vehicles, conduct an inspection to ensure all vehicles are ready for deployment. 7. **Conduct Training and Workshops.** Conduct emergency communications training and workshops for the Provincial and Local Disaster Risk Reduction and Management Offices (P/LDRRMOs). 8. **Regular HF Radio Check and Monitoring.** Conduct HF radio check-in and check-out with provincial offices every Tuesday and Friday at 10:00 - 11:30 am and 3:00 - 4:30 pm to check and maintain its operation. 9. **Regular VHF Radio Check and Monitoring.** Conduct VHF radio check-in and check-out with provincial offices every Wednesday and Friday at 10:00 - 11:30 am and 3:00 - 4:30 pm to check and maintain its operation. 10. **VSAT Speedtest Reporting and Monitoring.** Daily conduct of reporting of VSAT speed test all deployed assets all throughout the region to check and maintain its operation. **II. Pre-Disaster** **REGIONAL AND PROVINCIAL** 1. **Participation in the RDRRMC and PDRRMC Meetings.** Assigned personnel from the provincial level and regional level to actively join

Standard Operating Procedure (SOP)

	the council meetings, especially the Pre-Disaster Risk Assessment (PDRA) meetings. 2. **Deployment of Detailed Duty Officer at RDRRMOC and PDRRMOC.** When the Emergency Operations Center is activated in the RDRRMOC and PDRRMOC, designate and create a schedule for the personnel from the regional level and or personnel from the provincial level to be assigned for duty. 3. **Provision of Alternate Internet Connectivity at the RDRRMOC and PDRRMOC.** Provide Internet connectivity to the Emergency Operations Center. 4. **Preparation of Equipment:** Inventory and listing of the equipment possible for deployment. 5. **Possible deployment of GETT personnel**: Prepare all necessary documents for possible deployment of personnel such as memo, travel order, gate pass, budgetary requirements (cash advance, budget proposal, etc.), etc 6. **Check and mobilization of all ETC equipment**: Check the facilities (HF Radio, VHF Radio) and equipment (SAT Phones, VSAT) for interoperability. 7. **Possible deployment of GETT-MOVE vehicles**: Prepare all necessary documents for possible deployment of GETT-MOVE vehicles (MOVE Hub, Dispatch, and Motorcycle) such as memo, travel order, gate pass, special permit to travel, budgetary requirements (cash advance, budget proposal, etc.), etc. 8. **Convene Regional Emergency Telecommunications Cluster (ETC) Meeting.** Personnel from the regional and or provincial level to organize a meeting with the member agencies of the Emergency Telecommunications Cluster to discuss the current available communications assets. 9. **Inspect MOVE Vehicles:** With the presence of MOVE Sets, check the availability, mobility, and operability of equipment. 10. **Secure Mobile Network Providers Status.** Personnel from the provincial level will coordinate with the concerned agency, the National Telecommunications Commission (NTC), for the status and updates on the network providers. 11. **Validation of the Telecommunications Service Provider Status.** The Regional and Provincial personnel will validate the submitted Harmonized Report of the Local Government Units (LGUs) and cross-check with the available data. **III. During Disaster: Response Operations** **REGIONAL AND PROVINCIAL** 1. **Provision of Internet connectivity in RDRRMOC and PDRRMOCs.** Regional and or Provincial personnel to provide Internet

Standard Operating Procedure (SOP)

	connectivity to the Regional and Provincial Emergency Operations Center (EOC) thru an Internet modem or VSAT. 2. **Assist in the communications between RDRRMOC and PDRRMOCs.** Support the communications between RDRRMOC and PDRRMOCs thru satellite phones and HF Base Radios from the regional down to the provincial level. 3. **Continuous deployment of Detailed Duty Officers at RDRRMOC and PDRRMOC.** While the response operations are ongoing, the deployment of designated detailed duty officers shall also continue until lifted. 4. **Deployment of GECS-MOVE and other assets.** Deploy the GECS-MOVE and other assets to the localities that need communications support as per recommendations from the Response Cluster (DSWD) or RDRRMC (OCD). 5. **Provision of Free Internet connectivity to the public.** Provincial personnel to provide Internet connectivity to the public to allow them to communicate and provide updates subject to availability of resources. 6. **Coordinate, mobilize, and utilize other assets from ETC agencies.** Regional GETT to coordinate with the member agencies of their committed available communications assets for augmentation to other areas which need communication. 7. **Sending of SitRep**: Provide Situational Reports (SitRep) every 6AM, 12NN, and 6PM or as needed to Central Office and RDRRMC 8. 8. **Attend RDANA**. Regional and or provincial personnel to attend RDANA with Regional/Provincial DRRM. 9. **Secure Mobile Network Providers Status.** Personnel from the provincial level will coordinate with the concerned agency, the National Telecommunications Commission (NTC), for the status and updates on the network providers. 10. **Validation of the Telecommunications Service Provider Status.** The Regional and Provincial personnel will validate the submitted Harmonized Report of the Local Government Units (LGUs) and cross-check with the available data. **IV. Post-Disaster** **Analysis and Assessment** 1. **Attend PDNA and other meetings**. Regional and provincial personnel to attend PDNA, Early Recovery, and Rehabilitation planning with other Response Clusters for assessment of the overall response. 2. **Deactivation of ETC.** Once the assessment has been done, and in the early recovery phase, the ETC shall now be deactivated.

Standard Operating Procedure (SOP)

	3. **Demobilization of ETC-GETT**. Once full normalcy of the telecommunication system services of affected areas are attained and can support the need of EOCs or ICPs concerned, ETC-GETT may be demobilized and transferred to other areas as per instruction/request of RDRRMC/PDRRMC. 4. **Submit Reports to ETC members/DICT Central Office Higher Officials**. Submit reports on the whole response operation during the disaster which includes Final Situational Report (SitRep), damage reports, etc.
Department of Human Settlements and Urban Development (DHSUD) Cluter Lead Agency for Shelter	Through the issuance of NDRRMC Resolution No. 10, s. 2021 the Department of Human Settlements and Urban Development (DHSUD) is designated as the lead for shelter and housing assistance programs during the response, early recovery, and rehabilitation and recovery phase. As the primary national government entity responsible for managing and overseeing emergency post-disaster/post-conflict shelter recovery interventions, DHSUD shall ensure access to adequate, safe, secure, habitable, sustainable and resilient homes shall be ensured in every response through the National Housing Authority (NHA), DHSUD's shelter production arm. The DHSUD, through the office of the Undersecretary for Disaster Response, will lead the roles and responsibilities of the Cluster with the following specific and expected deliverables in each phase: **Pre-Disaster Phase** ● Release activation memorandum to all Regional Offices ● Activate Regional Shelter Clusters; ● Organize Standy-By Response Teams and conduct immediate inventory of all available resources and materials; ● Lead the coordination and consultation with the Shelter Cluster members; ● Allocate funds to be downloaded to the Regional Offices (ROs) for possible emergency shelter assistance; ● Mobilize resources to support possible shelter housing assistance to be provided to the affected beneficiaries; and ● Organize, attend and send representatives to cluster and other coordination meetings.

Standard Operating Procedures (SOP)

	During Disaster Phase ● Deploy Shelter Response Team in the disaster-affected areas to conduct the following activities: ○ Assess the emergency shelter needs of affected communities and set targets for prioritization; and ○ Regional Shelter Response Team through the Local Government Units (LGUs) to validate the number of affected families. ○ Distribution of emergency shelter assistance to affected families ● Provide continuous monitoring and reporting of affected families with damaged houses through LGUs; ● Organize, attend and send representatives to cluster and coordination meetings; and ● Coordinate with internal and external donor/donation agencies for their capacities taking into consideration during disaster situations. **Post Disaster Phase** ● Continue deployment of teams as necessary; ● Participate in the conduct of Post Disaster Needs Assessment (PDNA) with other partner agencies as necessary; ● Conduct evaluation and monitoring of the implementation of shelter assistance programs in consideration with the quality, sufficiency, effectiveness and timeliness of distribution which help to improve the overall implementation system and approach; ● Prepare and submit comprehensive reports with recommendations to the National Shelter Cluster; and ● Document lessons learned and good practices.
Department of the Interior and Local Government (DILG) Cluter Lead Agency for Management of the Dead and Missing (MDM)	NDRRMC No. 19 s. 2016 mandates the DILG to lead in the MDM. It has the prime responsibility in the planning, monitoring and evaluation of the MDM implementation and coordinates with the Local Government Units (LGUs) and other concerned agencies such as members of the disaster victim identification, disposition of the dead, management of the missing persons and management of the bereaved families.

Standard Operating Procedures (SOP)

Department of Agriculture (DA) Food and Non-food Item (NFI) Cluster Member Agency	**The RED, as head of the Regional DRRM-OpCen, shall:** ● **Direct the development and** operationalization of the DRRM regional plan of action in agricultural and fisheries; ● Advice the Secretary on DRRM issues and reports on DRRM programs, project and measure undertaken for agriculture and fisheries at the regional level; ● Lead the formulation and implementation of regional contingency plans for emergencies affecting agriculture and fisheries; ● Serve as focal officer for DRRM of the DA at the regional, and work with the Regional Disaster Risk Reduction and Management Council (RDRRMC) and other disaster related agencies; and ● Ensure that a Regional Quick Response Office (RQRO) is established and operational during the disaster preparedness and response phase or during emergencies **Regional Quick Response Office** The RQRO is the hub of response operation at the regional level. It should have the necessary and appropriate space, facilities, equipment and logistics for a centralized direction and coordination on its function. **Functions** ● Disseminate warning, advisories and information to the public; ● Direct and coordinate preparedness and response operations; ● Coordinate with the RDRRMC and LGU DRRM counterpart; ● Man the DA Regional RQRO on a 24-hour daily basis; ● Mobilize its personnel, Regional integrated Agricultural Research Center (RIARCs) and Regional Information Office (RIOs); ● Monitor supply of commodities, price of goods, and logistics, among others; ● Provide logistical support and coordinate response operations and resource mobilization; ● Receive and consolidate the DRRM related reports from the Bureaus and attached Agencies/ Corporation regional office; ● Prepare and submit the required DRRM reports to the DA DRRM-OpCen; ● Define the parameters for analyzing impact of disasters at the regional level and

Standard Operating Procedure (SOP)

	conduct situational assessments, damage and loss assessment; ● Recommend rehabilitation measures and submit to to DA-DRRM OpCen; ● Act as a clearing house for regional disaster-related information;and ● Perform other functions deemed necessary by the DA national and regional DRRM-OpCen. **1) Pre-Disaster Phase** a. Conduct Pre-disaster Risk Assessment b. Provide an inventory of buffer seeds stocks in the bodegas in the DA warehouse **2) During Disaster Phase** a. Monitor and assess the effects of disaster - damage and losses in agriculture b. Collate and analyze damage and losses report c. Coordinate with RDRRMC and other DRR-related agencies **3) Post-Disaster Phase** a. Lead in the Post Disaster Needs Assessment in agriculture b. Coordinate in the preparation of rehabilitation plans c. Monitor the delivery of services, outputs and outcomes
Philippine Coast Guard (PCG) Cluster Member of Logistics, SRR, FNI, CCCM	**1) Pre-Disaster Phase** a. Alert and monitor all Deployable Response Group (DRGs)/PCG Districts/Stations/Detachments for possible deployment for SRR operations; b. Inventory of all available human resource, floating and mobility assets for possible deployment; c. Provide necessary assistance in support to LGUs and the Cluster through R/LDRRMC/OCD and d. Submit to the Cluster Lead a list of available government SRR, FNI, Logistic Teams for immediate possible deployment **2) During Disaster Phase** a. Provide an inventory of equipments and Disaster Response Groups (DRGs) ready for deployment to the affected areas in coordination with the Regional SRR, FNI and Logistics Cluster Lead **3) Post Disaster Phase** a. Conduct retrieval operations as per request by the Council; b. Assist in the production and delivery of family

Standard Operating Procedure (SOP)

	food packs and assorted non-food items as augmentation support to affected areas; and c. Support in the CCCM other tasks as requested by the Chairperson, R/LDRRMC/Vice-Chairperson for Disaster Response
Department of Public Works and Highways (DPWH) Cluster Member of Logistics	**Pre-Disaster Phase** 1. Prepare all logistical requirements (equipment, communication facilities, PPEs, food and first aid kit for responders) to be used in response operations. 2. Properly coordinates with other government agencies involved in pre-disaster management. 3. For road sections with ongoing projects, tapped/instruct contractors and DPWH Project Engineers assigned to fast track the activities particularly with on-going road excavation (cutting works) which may result in road closure and to preposition/stand-by their assigned responder for possible clearing operations. 4. Conduct inspection on critical structures that may cause possible hazard. 5. Pruning of trees and declogging of canal on all national roads prone to flooding. 6. Secure a Memorandum of Agreement (MOA) among the Department, Shipping Companies and Philippines Ports Authority (PPA) for the transport of heavy equipment for the augmentation for clearing and response in case it will be transferred via water transportation. 7. Clearing national roads for mobility and identification of alternate routes for response operations for humanitarian assistance prioritizing the roads leading to evacuation centers, ports, airports, hospitals, warehouses and temporary relief camps and medical facilities. 8. Mobilize identified partners in response operations such as clearing operations and provision of an alternate road network going to and from the affected areas to facilitate the transport of goods and personnel. **Disaster Response Phase** 1. Clearing national roads for mobility and identification of alternate routes for response operations for humanitarian assistance prioritizing the roads leading to evacuation centers, ports, airports, hospitals, warehouses and temporary relief camps and medical facilities.

Standard Operating Procedures (SOP)

	2. Mobilize identified partners in response operations such as clearing operations and provision of an alternate road network going to and from the affected areas to facilitate the transport of goods and personnel. 3. Provide traffic management and travel advisory to guide road users. 4. Provide logistical support to other response agencies as requested by the Logistics, Shelter and International Humanitarian Assistance Clusters Leads. 5. Provide temporary structures required to ensure continuous mobility of response operations and execute palliative measures to infrastructures with minor damages to prevent further damage. 6. Inform and coordinate with the LGU (Barangay/Municipal/City/Provincial) regarding the status of national roads within their area of concern. **Post Disaster Phase** 1. Continually remove obstructions and urgently rehabilitate the affected roads sections; 2. Continually construct temporary structures required to ensure continuous mobility of response operations and execute palliative measures to infrastructures with minor damages. 3. Provide continuous logistical support (manpower and equipment) in hauling and delivery of goods/commodities to other response agencies as requested by the, Shelter and International Humanitarian Assistance Clusters Leads. 4. Conduct Post Calamity Damage Assessment (PCDA) on reported damaged infrastructure for immediate rehabilitation/restoration funding. 5. Continually provide traffic management and travel advisory. 6. Provide support in the conduct of Post Disaster Needs Assessment (PDNA) per request of the Office of Civil Defense (OCD).
